Subject: Dimock Tetra Tech TDD SOW Modification

Denise,

Please modify the Dimock TDD for Tech Law to allow them to provide for the review of Isotech analytical data for approximately thirteen drinking water samples collected during a recent sampling event. In discussions with the project lead, we expect this work to be subcontracted by Tech Law, since they don't have the expertise in-house.

Scope

1. Review and interpret Isotech analytical data for approximately thirteen (13) drinking water samples.
2. Provide a summary of conclusions.

If you should have any questions, please contact Rich Rupert at 215 814 3463.

Thanks.

Rich
